

**75th D-DAY ANNIVERSARY
FUNDRAISING AND
COMMEMORATIVE
PARACHUTE DROPS WITH
EX-PARA FRANK FLETCHER
JUNE & SEPTEMBER 2019**

Two commemorative parachute drops are set to raise essential funds for two charities – the National Facial Oral and Oculoplastic Research Centre (NFORC), funded by research charity Saving Faces and partner the British Association of Oral and Maxillofacial Surgery (BAOMS), and Special Forces veterans charity Pilgrim Bandits.

"I wanted to make the two jumps as a mark of respect for my former colleagues and to commemorate what they achieved. I have seen facial wounds as a result of conflict, and the work of maxillofacial surgeons and the support both charities give is amazing – and that's why it's important to raise awareness and money to continue the work they do." - Frank
